

Lesson Examples

The Academic Language Programme was implemented in different educational contexts across Europe. Although the themes differed, all lesson examples follow the same four-step approach:

1. Present
2. Explain
3. Consolidate
4. Check

The examples below illustrate how academic language can be integrated into meaningful classroom activities.

NL The Netherlands & Belgium

Academic Vocabulary Through the Four-Step Method

Focus

Students explore academic vocabulary through visualisation, word families, discussion and collaborative activities.

Learning objectives

- understand new academic vocabulary
- use words actively
- connect vocabulary to different school subjects

Example activities

- picture cards
- matching exercises

- synonym games
- sentence building
- reflection

→ See Lesson Plan Example 1 in the ALP Manual.

IE Ireland

Research Skills, Note-taking and Digital Literacy

Focus

Academic language embedded in research skills.

Learning objectives

- evaluate information
- identify reliable sources
- summarise
- justify arguments

Example activities

- analysing websites
- note taking
- evaluating sources
- vocabulary tasks

→ See Lesson Plan Example 2 in the ALP Manual.
